

Management system

Meeting half-way market requirements and having in consideration primary significance of quality and care for the natural environment, ANGA implemented the Quality and Environmental Management System conforming to ISO 9001 and ISO 14001 standards, which embraces development, production, sales, packing and servicing of mechanical seals. Pillars of the Management System are:

- [Quality policy](#)
- [Environmental policy](#)
- [Health and Safety \(OH&S\) policy](#)
